Career Objective

Motivated BTech CSE (AI) student seeking TDC internship to build/deploy AI/ML & mobile products. Hands-on coder with C/Python/Java projects demonstrating execution under deadlines. Eager for team-based shipping & public portfolio growth.

Education

BTech Computer Science & Engineering (AI Specialization)

Manipal Institute of Technology, Bengaluru | 2024-2028 | CGPA: [Add yours]

Projects (github.com/aasrith/aasrith-cs-projects)

- Crypto Trading Strategy (Chronos) | Python, pandas, statsmodels | Cointegration signals for LDO vs BTC/ETH; z-score mean-reversion. Competition-ready (95+/100 score).
- Smart College Attendance Analyzer | C, Structures/Arrays | Tracks attendance/marks, grades, <75% flags, topper finder for 100+ students.
- Hostel Mess Billing Tracker | C | 30-day attendance, dynamic billing (₹50/day, 10% discount >5 leaves), unpaid alerts, revenue summary.
- Online Shopping Cart System | C | 20-item inventory, cart/add/stock update, checkout with discounts (>₹1000: 10% off).
- Java Bank Management System | Java OOP | Account/Savings inheritance, deposit/withdraw/interest, ArrayList ops.

Skills

Languages: C, Python (pandas/numpy/statsmodels), Java

Concepts: OOP, Data Structures, ML Basics (cointegration), Algorithms

Tools: Git/GitHub, GCC, Jupyter

Certifications

- Fundamentals of Java Programming (BoardInfinity, Coursera)
- Fundamentals of Python (IBM)

Experience

- Java Intern, Forever Technologies Pvt. Ltd. | [Dates] | [Add details: attendance/mess systems?]
- Science Fair: Electric Bell Project | 7th Grade | Built functional circuit demo.

Extracurricular

- Competitive coding, game dev, Pokémon GO strategy
- Formal email/project documentation

Declaration: Information true to best knowledge. Ready for execution-driven challenges.
